

Follow these steps to install the latest version of the WeakStoryTool software:

1. Download the zip file by clicking on the link on the ATC website
2. The zipped file should be downloaded to the default location for downloads set in your browser.
3. Extract the contents of the zipped file and find the "setup.exe" file in the directory that was just extracted.

4. Double-click the "setup.exe" file. This will start the installation. A message will appear asking whether the publisher is trustworthy; click "OK."
